

BLACK BEAUTY

FALL MAGIC

PREMIUM GRASS SEED MIXTURE

FORMULATED FOR FALL SEEDING
PRODUCES A DARK-GREEN LAWN
GERMINATES IN 10 TO 14 DAYS

WHY BLACK BEAUTY?

- GROWS WELL IN SUNNY AND SHADY AREAS
- UNIFORM, VERTICAL GROWTH HABIT
- GROWN BY SOD GROWERS ACROSS THE USA
- DEEPLY ROOTED FOR HEALTHY TURF

Fall is the best time to seed lawns. Black Beauty Fall Magic, with its special fall formula, provides an attractive, perennial, healthy, dark-green lawn. Black Beauty Fall Magic is able to withstand heavy traffic, too. It thrives in sunny and shady areas of the lawn. Seed should germinate in 10 - 14 days.

Black Beauty varieties root deeply, contain a waxy leaf coating to preserve moisture, have a uniform growth habit, and are naturally insect resistant.

CAUTION: Do not apply this grass seed on horse pastures or livestock grazing areas!

DIRECTIONS

SUCCESSFUL SEEDING CAN BE ACCOMPLISHED IF THESE PROCEDURES ARE FOLLOWED FOR BOTH OVERSEEDING LAWNS AND ESTABLISHING NEW LAWNS OR SODDING.

1. PREPARATION: Good seed-to-soil contact is very important in order to achieve good germination of the planted grass seed.
 - (a) Mow lawn before seeding.
 - (b) Rake dead grass and debris and loosen the soil. Add additional topsoil if needed. For larger areas, a rented de-thatching machine may be easier.
 Apply seed to the loosened soil and then lightly rake it into the ground. Do not bury the seed more than 1/4" deep.

2. For best results, apply these **Jonathan Green** products in any order, on the same day.

Jonathan Green Veri-Green for Seeding & Sodding
 Provides the nutrients necessary for new grass growth.

Jonathan Green MAG-I-CAL Plus for soil compaction and pH adjustment
 Helps loosen hard, compacted soils. Provides calcium - an essential grass plant nutrient which aids in the seedling's ability to absorb nutrients.

3. Seed bed should be kept moist for a few weeks while the grass seed germinates. Mow the new grass after it has reached a height of 2-1/2 to 3 inches.

Consult your dealer concerning follow-up fertilizer applications and maintenance advice.

My Pledge Of Satisfaction
 We have made every effort in the formulation of this product to assure that you will be satisfied with the results. If, for any reason, you are not satisfied, please write and describe the problem. Our lawn specialists will make every effort to assure your success.

Benefits of lawns: Grass slows down and absorbs water run-off and controls soil erosion while cleansing water of impurities and dust. Grass plants remove carbon dioxide from the atmosphere. A 5,000 sq. ft. lawn produces enough oxygen for 8 people daily. Lawns cool off the immediate area, about 30 degrees cooler than asphalt and about 20 degrees cooler than bare soil. Lawns reduce noise, glare and increase your property value. Leave grass clippings, if possible, so nutrients and water go back into your lawn.
